ALL THE STEPS OF MANUFACTURING STARTING FROM MACHINE PARTS AND TOOLING INDUSTRIES

INTERMOLD has been leading Japanese mold industry more than 35 years as only one exhibition to showcase state-of-the-art mold technology in Japan. Nowadays the manufacturing industry is required to transform the production to cope with changes in the business environment like carbon neutral, digital manufacturing, producing new materials.

INTERMOLD continues an aggressive approach to automotive parts, aircraft parts and electronics industries which work closely with molding industry.

In addition, the show covers Additive manufacturing, Digital transformation and future plastic processing as special themes to promote a new business matching between exhibitors and visitors.

We believe you can get a lot of business opportunities with this comprehensive business platform which offers contacts to all the steps of manufacturing starting from Machine Parts and Tooling Industries.

“RESPONSE TO MANUFACTURING MAJOR CHANGE”

–The Machine Parts and Tooling Industries that support the development of core industry–
We propose consistent solutions from the latest mold technology to metal stamping technology.

“Why INTERMOLD ?”

1. All process of molding, metal stamping, plastic parts manufacturing are gathered.
2. More than 38 times, it prove that INTERMOLD is the leader exhibition for related industry.
3. The cooperation between organizers and supported associations
4. Promotion of business matching with close industry.
5. Chances to communicating with organizer, visitors, and exhibitors.

Over the gap of 3 years under Covid-19, overseas business activities have been back, and people need any information about trade, investment and purchase.
The show will be a good chance to grab a future business.

“Catch the industry demands”

- The exhibition will be held in April at the beginning of the year and will be positioned as the planning for the annual purchase plan, and will be linked with the subsequent plans to aim for synergistic effects.
- Nagoya, Gifu and Mie are the congested areas of material industries, and the center of automobile industries. Exhibitors can appeal the parts or material technology to Tier 1, 2 and 3 companies. Visitors are not only from these 3 areas but also from the neighboring region. This is the unique point of the show in Nagoya.
